SUMMARY

As an experienced Web/WordPress Developer with a proven track record spanning 4 years, I specialize in creating responsive, user-centric websites that offer unparalleled user experiences. Proficient in HTML, CSS, and JavaScript, I excel in crafting bespoke WordPress themes and plugins, ensuring tailored solutions that align with clients' specific requirements. With a robust background in web development and deep-rooted expertise in WordPress, I am dedicated to driving innovation and delivering exceptional outcomes. My collaborative approach involves closely working with designers and clients to grasp their vision and translate it into visually captivating, highly functional websites.

WORK EXPERIENCE

Frontend/WordPress Developer (Pakipreneurs Pakistan)

- Developed responsive and interactive user interfaces using HTML, CSS, and JavaScript to ensure cross-browser compatibility and mobile responsiveness
- Built and maintained modern web applications using React and Next.js, focusing on performance, scalability, and clean code practices
- Customized and maintained WordPress websites, including theme modifications, plugin integration, and frontend enhancements
- Participated in code reviews, debugging sessions, and feature development to support project goals and maintain code quality
- Researched and implemented the latest frontend technologies, tools, and trends to continuously improve development processes and user experience

Frontend/WordPress Developer (Innovatechs Pakistan)

- Assisted senior developers in building and maintaining complex WordPress websites, including custom themes, plugins, and integrations
- Contributed to code reviews and provided technical input for development projects
- Conducted research on the latest WordPress trends, best practices, and emerging technologies to stay updated and improve development skills

Freelance Frontend/WordPress Developer

- Worked directly with clients to understand their website needs and objectives, translating their vision into functional and responsive WordPress websites. I developed custom WordPress websites tailored to client specifications, ensuring pixel-perfect designs and seamless user experiences. Managed multiple projects simultaneously, meeting tight deadlines, and using expertise in HTML, CSS, and JavaScript to deliver top-notch solutions. Built a portfolio showcasing a range of WordPress development skills and expertise.

SKILLS

- Proficient in HTML, CSS, and JavaScript
- Experience in building responsive, user-friendly WordPress websites and web applications
- Strong understanding of web development
- Excellent attention to detail and time management skills
- Ability to work independently and collaboratively in a remote environment
